Our new homepage!
A few examples of what our new tech docs will look like:

Get started at Bryn Mawr

Use the information and articles linked below to jump start your experience as a new Bryn Mawr College community member!

The essentials: accounts and wireless

- Account setup
- Two-Factor
- eduroam (WIFI)
- What to bring

You must set up your College account before proceeding.

Public technology

- Public printers
- Network drives

Print to any public printer and store files on the College server for convenient access.

Email & calendar

- Microsoft 365: Overview
- Setup on Office 365
  Android or iOS devices
College password: Set up and update

This article reviews how to set up your College password or change it as needed.

Before You Start, you may need access to the following:
- a laptop/desktop computer with Internet access
- an email from help@brynmawr.edu with your College username

First-time account setup

Receive an email from help@brynmawr.edu with your College username

Call the Help Desk at 610-130-7440 or drop by Canaday Library.

Login with your new account, setup disk, and review our New to Bryn Mawr College guide.

Change your College password

Off-Campus and using a Windows College computer? Show more

1. Navigate to password.brynmawr.edu/ff
2. Enter your College username, click Submit
3. Enter your current College password, click Submit
4. Enter a new password and re-enter it to confirm
   Be sure your password fits length & complexity requirements!
5. Click Submit

Questions?

If you have any additional questions or problems, don’t hesitate to reach out to the Help Desk!
Software for Personal Devices

The following article applies to personal devices. For College computers, see current Software Configurations and Software Center: Installing Programs.

Before you start, you will need access to the following:
- Bryn Mawr College account
- a laptop or desktop with internet access

Access to some of the following software is dependent on your current enrollment/employment status.

Remote access

Most software available in our computer labs can be accessed remotely on personal computers. Instructions are linked here:
- LabStats: Remotely Connect to a Lab Computer
- AppFolio: Remotely Connect to a Virtual Lab Computer
